Grateful & Thankful This Thanksgiving

Get your Diestel Turkey order in early!

This holiday season, Tip Top Meats is proudly fully stocked up for the holidays! Tip Top Meats has secured a large inventory of supplies at great prices guaranteed to help fight inflation. As they have always promised they will offer you great pricing while not sacrificing the quality, service or the availability.

As you might suspect, the team at Tip Top is asking their customers to get their turkey orders in as early as possible for their order for this year's Thanksgiving holiday.

They want to be able to fulfill your order efficiently. If you are looking for hassle-free convenience this holiday, Tip Top Meats can cook your turkey for you and provide a cooking pan and bag for later preparation. For days over the Thanksgiving Holiday they have their convection ovens going non-stop and will cook over 200 turkeys just for starters. These pre-cooked turkeys can be reheated and they include

instructions that will result in a perfect turkey every time.

So, as you would expect from Tip Top Meats, they are also already preparing their specialty handcrafted Turduckens, which are a special boneless cut of turkey, duck and chicken, all stuffed with fresh herbs and celery. This delicacy is in high demand and moves fast and comes with cooking instructions as well.

Make sure you don't leave Tip Top Meats without your holiday sides! Homemade and delicious, you can add stuffing, mashed and sweet potatoes, gravy, all natural of course, and their famous cranberry sauce, which is back by popular demand this year.

They make over 80 gallons of this delicious sauce and it goes fast, so make sure to pick up a tub or two! They also have plenty of fresh, hand cut turkey parts to make your thanksgiving stock extra delicious!
